RE: Delivery of 34-00600, 34-00606

Dear Mr. Rosenkrance:

Per your telephone call today, Matea McCray is calling for delivery of the above mentioned rights. The Director's Report for Basin 34 recommended only the in-stream stock watering portion of the claims for 0.07 cfs for each right; the irrigation portion was not recommended. The SRBA special master's recommendations allow 25 acres of irrigation at 0.5 cfs for these rights combined. The special master's recommendation has been objected to and is before the SRBA court. Therefore, the rights have not yet been partially decreed.

Water Distribution Rules for District 34 state that "Administration of surface water rights is based upon the list of water rights approved for interim administration by the court or as subsequently decreed by the court in the SRBA" (IDAPA 37.03.12.40.01). Until these rights are decreed or you receive other direction from the Department, these rights must be delivered per the Director's Report.

Thank you for your cooperation in this matter.

Sincerely,

Scott King
